2nd Medium-Term Management Plan Review (Fiscal 2011- Fiscal 2013)

Introduced new products to tax accountant and CPA firms and small and midsize companies to continuously develop highly-value added proposal-driven sales activities targeting new customers. Growth in sales to new customers contributed to service revenues including software maintenance. Achieved an all-time high for 3 consecutive years, and both sales and ordinary income exceeded the initial targets.

(Unit: Million yen)

2nd Medium-Term Management Plan (2011- 2013)

Establishing a stable earnings foundation and a technical foundation for dealing with changes in the operating environment

	2 nd medium-term management plan FY2013 targets	FY2013 actual	Achievement rate
Sales	20,500	22,077	107.7%
Ordinary income	2,150	2,422	112.7%
Ordinary income margin	10.5%	11.0%	_

^{*2013} targets are initial numerical figures announced in November 2010.

Basic policies		Review			
Reinforce our product line-up and improve the quality of our service offer	0	Reinforced product line-up through alliances and improved the quality of our services through internal hardware maintenance and improvement of quality at call center.			
Launch epoch-making new products onto the market by means of radically changing our development structure		Set a development strategy suited to management policy to develop high-quality products to meet market needs and build an efficient development structure by improving engineers' skills. However, the MJS Group will continue to work on the "Effective use of development resources due to the selection and concentration of products and services" as a priority issue.			
Foster the performance of our workforce and strength our sales structure to increase the number of new customers	Δ	Placed a dedicated staff to develop new customers in each branch and aggressively conducted training to strengthen proposal capabilities. However, the MJS Group will continue to work on the "Appropriate placement of personnel company-wide due to area marketing" as a priority issue.			
4. Build a foundation for creating new businesses		To create a new business, the MJS Group reinforced its Internet Division and set up projects by issue and focused on aggressive information gathering and analysis. However, the MJS Group will continue to work on the "Building an organizational structure and foundation for the creation of new businesses" as a priority issue.			
Boost our CSR activities and increase our earnings power by raising productivity	0	Continued to carry out personnel training and improved business using IT to improve productivity.			

Environment Surrounding the MJS Group in Japan (Future Management Environment)

Economic environment and legal system

- Business sentiment improved due to the Abenomics and 2020 Tokyo Olympic Games
- Launch of the My Number system (from 2016)
- Revision of consumption tax rate (2014 and 2015)

Small and midsize companies

- Intensifying competition due to the rise of emerging countries
- Growing interest in strategic IT investment
- Progress of overseas business development
- Smooth business succession, necessity of business revitalization

The Miroku Jyoho Service Group

Tax accountant and CPA firms

- Problems of business succession arising from the aging of office heads
- Diversification of accounting office clients' needs
- Turning into tax accountant corporation and intensification of price competition
- Spread of management improvement support providers (certified support service providers)

IT vendor industry

- Shifting to industrial structure through cloud services
- Expansion of use of big data for business
- Spread of smart device and acceleration of BYOD
- Annual growth rate of ERP market is 6.7% until 2016

Medium-Term Management Vision (Fiscal 2011 - Fiscal 2016)

The MJS Group promotes management innovation for our customers by adapting to technical innovation on the internet and evolving to deal with a changing business environment and adopting our customers' viewpoint to provide them with new value (in management systems, management know-how, and management information services) to satisfy them.

∼Supporting IT transformation, and promoting growth at SMEs∼

The innovator in accounting and management systems.
